OADEM Consultants LLP is a Pune-based architecture and engineering firm offering master planning, design, interior, project management, and construction supervision services. The company delivers quality solutions through a streamlined, single-window approach, collaborating with structural, MEP, and cost experts to add value to specialised building projects.

Candidate Profile and Expectations

At OADEM Consultants LLP, we seek passionate professionals who enjoy creative work, have inventive and analytical minds, offer practical solutions, and thrive in a disciplined environment. We value long-term commitment and growth with our team.

Required Attributes

- Design Sensibility: Candidates must show strong design skills and adapt to new materials, trends, and technologies.
- Learning Agility: We value fast learners who master software tools and keep up with industry changes.
- Lateral Thinking and Open-mindedness: Applicants should think creatively and embrace varied perspectives.

Work Flexibility and Project Diversity

Candidates should demonstrate flexibility and readiness to work and take on multiple roles on different projects, including master planning and building design for real estate, specialised facilities, healthcare, hospitality, metros, airports, and seaports.

Technical Skills and Minimum Requirements

- BIM Modelling: Proven experience with Autodesk REVIT is required; Navisworks is essential.
- Software Skills: Knowledge of Enscape or other 3D/rendering software is a plus.
- Construction Knowledge: Must understand design intent, construction methods and sequence
